

Global Gender Workshop on NDC Planning for Implementation

Agenda

24-26, April 2019, Nairobi, Kenya
Safari Park Hotel and Casino, Ivory Room

Concept

The Global Gender Workshop on NDC Planning for Implementation provides an opportunity for the 17 programme countries under the NDC Support Programme to share experiences and lessons learned on gender-responsive NDC planning for implementation within the programme areas of governance (institutional frameworks and coordination mechanisms), planning for implementation (sectoral/national) and enhanced climate policy instruments (NAMAs, NAPs, LEDs).

Participants

Three participants from each of the 17 programme countries: one representative from the Ministry of Environment/ Climate Change, one representative from the Ministry of Gender/Women's Affairs and one person from the project team/ UNDP Country Office (CO). Participants also include representatives from international organisations, development partners and other institutions involved in the NDC process.

Purpose

To continue collaboration with national governments, and others in promoting gender equality and women's leadership in national climate action.

Objectives of Global Gender Workshop

1. Encourage and facilitate peer-to-peer exchange among countries to share experiences and lessons learned on integrating gender equality into NDC planning and implementation based on preliminary findings of their gender analyses.
2. Identify opportunities to integrate or strengthen gender equality considerations in the three works areas of governance, planning and policy in order to consolidate a way forward for the short term, and for future enhanced NDC cycles.
3. Strengthen the linkages between gender-responsive NDCs to broad development benefits/SDGs.

Expected results

- Peer to peer learning about key opportunities and challenges on integrating gender equality into NDC planning and implementation from several national contexts while simultaneously strengthening partnerships.
- Increased understanding of relevant entry points to advance gender equality and women's empowerment into the NDCs process going forward.
- Improved understanding of the NDC and SDGs nexus to increase climate change ambition and broader development outcomes.
