

# The Revision/Enhancement Process

- Countries are requested to update and revise NDCs by 2020
  - Parties whose INDC with a **time frame up to 2025** to communicate a **new NDC** by 2020 and to do so every five years thereafter;
  - Parties whose INDC with a **time frame up to 2030** to **communicate or update** by 2020 the contribution and to do so every five years thereafter;
- Enhanced ambition submitted **every 5 years**
- Given the outcomes of the IPCC 1.5C report, and what many of us are already experiencing (extreme weather events, loss of livelihoods, etc.) **increased ambition** and **enhanced transparency** across the board is **crucial** and **urgent**.

# Menu of options for enhancing NDCs

# The Opportunity

- Provides the **optimal entry point** to embed gender and other forms of social inclusion both in the vision and in the planning
- Even if not fully actualized immediately enhancement is an opportunity to **improve, embed** and start **building the blocks** to ensure gender integration for future submission cycles.
- Opportunity to **address gaps** that are now apparent in the first I/NDC (lack of: time, coordination, data, analyses)
- Also, provides the opportunity to **synchronize NDC targets** and actions with **SDGs** so that we are working in fulfillment of both the **Paris Agreement** and **Agenda 2030**, but most importantly towards more **equitable** and **sustainable development outcomes**.
